RB Course Content

This unit specifies the skills and knowledge required to **safely perform basic rigging work**.

Riggers use mechanical load shifting equipment and associated gear to move, place or secure loads, including plant, equipment or members of a structure. Riggers ensure the stability of those members and set up and dismantle hoists.

This unit applies to rigging work involving:

- structural steel erection
- hoists
- pre-cast concrete members of a structure
- safety nets and static lines
- mast climbing work platforms
- perimeter safety screens and shutters
- cantilevered crane loading platforms.

Rigging work is undertaken in construction and other industries where load shifting equipment is used to move, place or secure loads.

Completion of the general construction induction training program, specified in the Safe Work Australia model *Code of Practice: Construction Work*, is required by anyone carrying out construction work. Achievement of CPCCWHS1001 *Prepare to work safely in the construction industry* meets this requirement.

Under the HRW RB licence course training and assessment

Our HRW Rigging Basic licence course is designed to give trainees a wide range of knowledge and skills that will enable them to work as a entry level Rigger in the civil construction, building, mining and transport fields.

Competence in **this unit does not in itself result in a licence**. A licence is obtained after competence is assessed under applicable Commonwealth, state or territory work health and safety (WHS) regulations. **Pass the final HRW RB licence test and Lodge the HRW RB licence at Post office within 60 days of issued from the Assessor.**

On completion, participants will have the knowledge and skill to work safely and productively in their chosen industry.
